## MESSAGE FROM THE HEAD OF SCHOOL

This week the transition information and virtual tour for the children joining Reigate School in September is available to view on the school website.

As we go into the last week of term, form tutors will be holding meetings with the children who have not been in school. We all look forward to seeing the children before the summer break. If you have not booked an appointment for your child these can be booked via INSIGHT for Years 7, 8 and 9 and for Year 10 please contact the school.

I would like to highlight an addition to the girls' uniform from September, further details can be found in this newsletter.

Stay safe and well.

Mr Alexander

## JUNIOR UK MATHS CHALLENGE.

This year, the Mathematics Trust decided to go ahead with the Junior Maths Challenge, online. Altogether 80 children from Reigate School (Year 7 and Year 8) were entered. They were able to do a practice paper first and then took the challenge itself. Their results were compared with thousands of children across the UK and they were awarded Gold, Silver or Bronze certificates for scores of more than 52%. The best score in Reigate School was 87%.

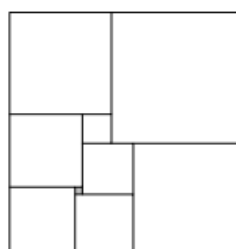

Past papers can be found online (search Junior Maths Challenge Archive) if you want to take a look at the types of questions that the children were able to answer. Here are a few of them:-

16. You are given the sequence of digits "0625", and can insert a decimal point at the beginning, at the end, or at any of the other three positions. Which of these numbers can you *not* make?

- A  $\frac{6}{25}$       B  $\frac{5}{8}$       C  $\frac{1}{16}$       D  $\frac{25}{4}$       E  $25^2$

17. In 1925, Zbigniew Morón published a rectangle that could be dissected into nine different sized squares as shown in the diagram. The lengths of the sides of these squares are 1, 4, 7, 8, 9, 10, 14, 15 and 18.

What is the area of Morón's rectangle?

- A 144      B 225      C 900      D 1024  
E 1056

21. The digits of both the two-digit numbers in the first calculation below have been reversed to give the two-digit numbers in the second calculation. The answers to the two calculations are the same.

$$62 \times 13 = 806 \quad 26 \times 31 = 806$$

For which one of the calculations below is the same thing true?

- A  $25 \times 36$       B  $34 \times 42$       C  $54 \times 56$       D  $42 \times 48$       E  $32 \times 43$

Answer A, E, D

Well done to the following children who were awarded certificates this year.

Reigate and Banstead Borough Council is consulting with local residents and visitors to Redhill about the Public Space Protection Order (PSPO) that covers Redhill town centre and Memorial Park. The PSPO regulates certain behaviours in order to tackle anti-social behaviour. It was brought in after local consultation in 2017 and is now up for review. The public consultation is an important part of that review.

Reigate and Banstead Borough Council have asked for anyone – including young people of any age – who use the park and town centre, or at least, did so before lockdown began to help with the review by completing a survey.

To complete the survey please visit [www.surveymonkey.co.uk/r/redhillpspreview](http://www.surveymonkey.co.uk/r/redhillpspreview) and for more information please visit Reigate and Banstead Borough Council's website <https://www.reigate-banstead.gov.uk/redhillpspo>.
