

your route to success

Student profile

Name: Freya

Previous School: Reigate

Subjects: Music, Music Technology,
Mathematics, Physics

How have you found your courses?

I feel like I've spent my entire time at College in the Music Department and have made amazing friends because of it.

Tell us about any College clubs or activities you've been in.

I go to Classic Album Club on Wednesday lunchtimes.

What are your interests outside College?

The experience I've gained in Music Technology has given me the opportunity to get lots of work experience at several recording and TV studios, and I've also co-produced an EP.

What are your plans for the future?

I have an offer to study the prestigious Tonmeister Music and Sound Recording degree at Surrey University. After that I want to go into record production or live sound engineering.

"I'm so interested in my subjects and how they link together, so I really enjoy my lessons"
