

your route to success

Student profile

Name: Jasper

Previous School: Reigate

Subjects: Mathematics, Further Mathematics, Physics

How did you decide which subjects to study?

I chose the subjects I enjoy the most and the ones that would give me the best chance of doing Engineering at university.

What have you enjoyed most about your courses?

Studying just three subjects means you go into much more depth in each subject compared to GCSEs. I've particularly enjoyed how the Physics course is applied to real-life scenarios.

Have you been involved in any clubs or activities?

I've done my Duke of Edinburgh's Gold Award through College and the support I got really motivated me to get everything finished.

“All my teachers have gone the extra mile to help me progress through College”
