

your route to success

Student profile

Name: Rowan

Previous School: Reigate

Subjects: French, Mathematics, Classics

Tell us about any College activities you've been involved in outside lessons.

I played for the College Rugby team which is a fun, healthy way to use my time, and is a chance to meet some great people.

What do you like most about studying at College?

The College provides lots of useful ways to progress your learning, and some really helpful options if you're struggling. At one point I was finding it difficult to keep up with my Maths and so was given extra sessions which has been incredibly useful.

What are your plans for the future?

I'm in the Lower Sixth so haven't had to decide yet, but I'm intending to go to university.

I've enjoyed the diversity my courses offer
